

Gabriel Bellamy

Full-Stack Software Engineer

Berkeley, CA | gbielbellamy@gmail.com | [linkedin.com/in/gbielbellamy](https://www.linkedin.com/in/gbielbellamy) | github.com/gbielbellamy | gbielbellamy.github.io

PROFILE

Full-Stack Software Engineer with hands-on experience designing, building, and deploying web applications using JavaScript, TypeScript, React, Node.js, Express, and PostgreSQL. Delivered a production website for a real client, a UC Berkeley research laboratory, managing the project from requirements through deployment. Brings six years of Quality Assurance and process analysis experience, contributing strong attention to detail, systematic debugging, and clear technical documentation to every project. Authorized to work in the U.S. (EAD, no sponsorship required) — open to full-stack, frontend, and junior software engineer roles in the Bay Area and remote.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React, Vite, Zustand, Responsive Design, Component-Based Architecture

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL

Testing: Vitest, Playwright, Unit & End-to-End Testing

Tools: Git, GitHub, VS Code, Chrome DevTools, Vercel, Netlify, Render

Spoken Languages: Spanish (Native), Catalan (Native), French (Native), English (Professional)

PROJECTS

Full-Stack Task Manager Application

React · Vite · Zustand · Node.js · Express · PostgreSQL · JWT

- Building a full-stack CRUD application with user authentication, a React frontend, and a RESTful Node.js/Express backend connected to a PostgreSQL database.
- Implemented JWT-based authentication and protected routes to secure user data and application routes.
- Designed a responsive user interface using component-based architecture; deployed frontend on Vercel.

UC Berkeley Diamond Lab Website — diamondlab.bio

HTML5 · CSS3 · JavaScript · Netlify

- Designed and developed a production frontend website for a real research laboratory client, managing the project from stakeholder requirements through deployment.
- Built responsive layouts for desktop, tablet, and mobile; created modular, reusable UI components.
- Managed version control with Git and GitHub; deployed and maintained the site using Netlify.

Developer Portfolio — gbielbellamy.github.io

HTML5 · CSS3 · JavaScript · GitHub Pages

- Designed and built a personal portfolio website to showcase full-stack projects, including interactive UI elements and accessibility improvements.

EXPERIENCE

Quality Assurance Analyst · ISGF, Spain

Mar 2017 – Aug 2023

- Monitored and evaluated interaction quality across 6 teams and approximately 72 agents, using structured criteria to assess compliance and customer satisfaction.
- Reduced repeat customer contacts by designing new follow-up procedures and post-call summary communications, improving resolution tracking and customer confidence.

- Built and maintained quality documentation standards, ensuring consistency, traceability, and process improvement across teams.
- Coached agents and managers on quality standards and compliance guidelines, translating data findings into actionable feedback.

Customer Relations Executive · Atento, Spain

Mar 2005 – Jun 2014

- Managed a dedicated portfolio of corporate accounts, serving as primary point of contact for business clients' mobile and internet services.
- Resolved account requests including line additions, cancellations, billing inquiries, and service restructuring through inbound and outbound calls.
- Built long-term client relationships that ensured timely issue resolution and service continuity.

EDUCATION

Full-Stack Engineer Program · Codecademy, Online, USA

2026

Digital Interaction and Multimedia (2 years completed) · Universitat Oberta de Catalunya, Spain 2021 – 2023
